Similarly, even if copyright has expired on an original text, certain editions may still be in copyright due to editing, translation, or extra material like annotations.

### Microwave Radio Links Carlos Salema

Very high capacity (orver 1,000 telephone channels) links may be established at frequencies above about 1 GHz given the large bandwidth available. The absence of a physical connection together with the very high capacity of such high frequency links make microwave radio relay links an attractive alternative to fiber optic cables in many situations.
