Operating Systems: Design and Implementation, 3rd edition This popular text on operating systems is the only book covering both the principles of operating systems and their application to a real system. All the traditional operating systems topics are covered in detail. In addition, the principles are carefully explained.

MODERN OPERATING SYSTEMS - pub.ro

This book is labelled as the fourth edition, but the cover (even in the picture) clearly says "3rd edition," and it does have the content of the 3rd edition. This edition contains information about Windows Vista, whereas the fourth edition (which I have an electronic copy of) has been updated to talk about Windows 8, so there's definitely a difference between them.
