Nordyne Furnace Troubleshooting Guide

It can get mighty cold mighty fast if your Nordyne gas or electric furnace isn't working. Before you check into a hotel, check out our troubleshooting guide below. You might need a new ignitor or flame sensor, or it could be something more serious. Something could be wrong with your draft inducer motor. Just remember Repair Clinic is here to help you diagnose the problem and get the right parts to you quickly and affordably.

Nordyne Furnace Troubleshooting & Repair | Repair Clinic

If it's blowing cold air, then the temperature control switch is broken and needs to be replaced. If it's hot, then the burner is still lit, and stopping the blower while the burner is still lit is dangerous. Set the thermostat to OFF. If the blower doesn't stop, find the breaker controlling the Nordyne Mobile Home furnace and throw that breaker. The burner should shut off, followed by the blower.
