employees could adopt a better leadership style. The study aim was to assess the leadership styles of nurse leaders, as perceived by their employees.

Leadership style of nurse managers as ... - SAGE Journals

Nurses are required to lead and manage care as soon as they have completed their training. However, the development of leadership skills and the associated learning can be challenging, especially for less experienced nurses and those at the beginning of their careers. This article examines the importance of effective leadership for nurses, patients and healthcare organisations, and outlines some of the theories of leadership such as transformational leadership.
