Craig Crossen has contributed articles and reviews to Astronomy magazine since 1983 and coauthored the book Sky Vistas. His interest in astronomy began when he was 13 years old and has included both binocular and telescope observing and formal graduate study in astrophysics. Wil Tirion's interest in astronomy began as a child.

### **Binocular Astronomy, 2nd Edition by Craig Crossen**

When you're new to stargazing, the first step seems obvious: buy a new telescope. But what will serve you just as well is a good pair of binoculars for astronomy. Binoculars bring the stars a bit closer to your eyes, with a larger field of view that makes the heavens a bit easier to understand.
