## **Australian Auditing Standards - AUASB**

Quality audit is the process of systematic examination of a quality system carried out by an internal or external quality auditor or an audit team. It is an important part of an organization's quality management system and is a key element in the ISO quality system standard, ISO 9001 . Quality audits are typically performed at predefined time intervals and ensure that the institution has clearly defined internal system monitoring procedures linked to effective action.

## **Quality audit - Wikipedia**

QUALITY AUDITING STANDARD There is an international standard guide to quality system auditing (ISO 10011-1, 1990). This standard points out that audits are required to verify whether the individual element making up quality systems, are effective in achieving the stated objectives.
