Stanhope & Lancaster (2008) explain that people in a phenomenological community “have a group perspective that differentiate them from other groups”. The members of this community share similar characteristics, goals, ideas, religion, race, values, or beliefs.

Stanhope Lancaster 2008 explain that people in a ...

Stanhope and Lancaster (2008) states: "The community is the client only when the nursing focus is on the collective or common good of the population instead of on individual health" (pg. 44) and "Although the nurse may work with individuals, families or other interacting groups, aggregates, or institutions, or within a population, the resulting changes are intended to affect the whole community" (Stanhope and Lancaster, 2008, pg. 344).

Reflection Essay on Windshield Survey - PHDessay.com

Low socioeconomics is a huge factor that affects many people, partially related to the fact that most people in this group can't afford health insurance (Stanhope & Lancaster, 2008). This tells us that a huge number of people are probably not seeking any medical care on a regular basis (Stanhope & Lancaster, 2008).
