Amazon.com: Customer reviews: Statistical Literacy at ...

Statistical literacy is the ability to understand and reason with statistics and data. The abilities to understand and reason with data, or arguments that use data, are necessary for citizens to understand material presented in publications such as newspapers, television, and the Internet. However, scientists also need to develop statistical literacy so that they can both produce rigorous and reproducible research and consume it.

Statistical literacy - Wikipedia

Sri Lanka has recorded 1.6 percent of negative economic growth rate for the first Quarter of 2020. Web Release on NCPI and Inflation June 2020.
