Strategic Financial Planning over the Lifecycle eBook by ...

Difference between strategic and financial planning is that financial planning is about planning for the finances or use of cash flows over a period of time while strategic planning is about planning the road-map of the organization. Financial planning is done in order to achieve the set financial objectives. Then, strategic planning is setting the plans for the future considering the vision and mission of the company.

Difference Between Strategic and Financial Planning ...

Strategic planning informs financial planning; strategic is the "what" and "why," while financial planning concerns the "how" and "when." Financial planning is built around financial projections. A company's data and financial analysts look at a number of things to determine the financial outlook of the present and future of both the economy and outside factors including:
