Over 10 percent of students in the United States—more than 4.8 million kids—are English language learners (ELLs), and the number is on the rise. Though these students do not learn differently than their native-English-speaking peers, they do have particular educational needs. To learn about these needs—and best practices for addressing them—I interviewed a range of educators and ...

6 Essential Strategies for Teaching ELLs | Edutopia

One strategy that teachers use is to vary the size of the group they teach to. Some lessons are taught to the whole class. Others are better for a small group of students or one student. Learning in a small group or one-on-one can be very helpful to kids with learning and thinking differences.
