### **Superforecasting The Art And Science**

—John Horgan, Director, Center for Science Writings, Stevens Institute of Technology

“Superforecasting is the rare book that is both scholarly and engaging. The lessons are scientific, compelling, and enormously practical.

### **Superforecasting: The Art and Science of Prediction ...**

Superforecasting: The Art of Science and Prediction, by Philip E. Tetlock, is a book about the art and science of statistical prediction, and its everyday uses. Except it isn't really, that is just what they are selling it as. The book starts off really strong, analyzing skepticism, illusions of statistical knowledge, and various types of bias.

### **Superforecasting: The Art and Science of Prediction by ...**

I (Matt) have really enjoyed reading Super Forecasting: The Art and Science of Prediction by Phillip E. Tetlock and Dan Gardner. It's a fun book for taking a dive into forecasting. I enjoyed reading about how forecasters related to weather, politics, stocks, etc. are often considered professionals even though they may actually be amateurs.

### **Amazon.com: Superforecasting: The Art and Science of ...**

Superforecasting: The Art and Science of Prediction is a book by Philip E. Tetlock and Dan Gardner released in 2015. It details findings from The Good Judgment Project.

### **Superforecasting: The Art and Science of Prediction ...**

In Superforecasting, Tetlock and coauthor Dan Gardner offer a masterwork on prediction, drawing on decades of research and the results of a massive, government-funded forecasting tournament. The Good Judgment Project involves tens of thousands of ordinary people—including a Brooklyn filmmaker, a retired pipe installer, and a former ballroom dancer—who set out to forecast global events.

### **Superforecasting: The Art and Science of Prediction by ...**

Sabermetrics is well established, and more generally sport science is now well-regarded. Discusses elements of good judgment other than good forecasting. Primary is good questioning - how do you decide which prediction problems to think about in the first place.

### **Notes on 'Superforecasting: The Art and Science of Prediction'**

Superforecasting is both a fascinating leap into the art of decision making as well as a manual for thinking clearly in an increasingly uncertain world. Professor Philip Tetlock reveals the gripping story of superforecasters - ordinary people with real, demonstrable abilities in successfully predicting the future - and how we can all utilise these skills in business, policymaking and ...

### **Superforecasting: The Art and Science of Prediction ...**

SUPERFORECASTING “Superforecasting is a rare book that will make you smarter and wiser. One of the giants of behavioral science reveals how to improve at predicting the future.” — ADAM GRANT, New York Times bestselling author of Give and Take “Good judgment and good forecasting are rare, but they turn out to be made of teachable skills.
