Tripartite Agreement; Iran and Belarus are Looking for Ways to Expand Geological Relations. Tripartite Agreement is Signed between Geological Survey of Iran, Research Institute of Earth Science and Republican Unitary Enterprise "Research and Production Center for Geology"

GS.I.R

Considering geological and structural units of Iran, three main structural units or zones could be distinguished in Iran. These units or zones are separated from each other by ophiolite-bearing sutures. Other criteria such as structural style, crustal character and age of basement consolidation, age and intensity of deformation, age and nature of magmatism, are used to subdivide these major zones into smaller elements.
