The labor relations process that produces a union-management relationship consists of three phases: union organizing, negotiating a labor agreement, and administering the agreement. In phase one, a group of employees within a firm may form a union on their own, or an established union (United Auto Workers, for example) may target an employer and organize many of the firm's workers into a local labor union.

Rationale. The free-rider problem is often cited as the rationale for union security agreements. A classic study of the free rider problem is presented in Mancur Olson's 1965 work, The Logic of Collective Action. In labor relations, the free rider problem exists because the costs of organizing a union and negotiating a contract with the employer can be very high, and because employers will ...
