DailyCheepReads.com has daily posts on the latest Kindle book deals available for download at Amazon, and will sometimes post free books.

Vivitar 283 Flash Guide Number

In 2012, I measure the actual light output of my Vivitar 283 as Guide Number 45 in feet at ISO 100, which is one stop less than its rated GN 64. This is typical for all flashes, and not bad for a 1970s flash tested in 2012. While rated for a 7-second recycle time, I measure only 4 seconds to ready-light on with Sanyo AA Eneloop.

Vivitar 283 Flash Review - Ken Rockwell

283 Flash. FEATURES. Guide number 120 (ISO 100/feet) 37 (DIN 21/m). Powerful automatic exposure range from 3 to 43 ft. Four auto f stop settings for controlling depth-of- field and maximum auto flash range. Vertical bounce flash for softer, professional quality lighting. Removable flash sensor can be camera mounted with the optional SC-1 sensor cord.

Vivitar 283 Guide Number

A Day in the Life of the Vivitar 283. Bounce Flash off a Low Ceiling. Most indoor photos are taken in rooms with normal 8-10 foot Ceilings. In this environment, the 283's ASA 100 Guide Number of 120 is adequate to bounce the light off the Ceiling. In my opinion, this gives a much more natural and richer look to the image than the usual direct-flash, where the flash aims straight at the subject with all the flattering lighting quality of a headlight.

A Day in the Life of the Vivitar 283

The Vivitar 283(285)is the FlashGUN indeed!a fine fine strong product which never let you down,due to my experience its a well made product giving you first class pro pics of high quality.I use it mainly with my Manual Nikons and find it just as good as products costing 4 times more!Get the japanese made version and put them everywhere from the back of an umbrella into a socket on your cam...its wonderfull and stable.I think once you have learned to handle it ,it can almost outperform any ...

Vivitar 283 Flash Flashes user reviews : 4.1 out of 5 - 40 ...

Measure the flash-reflector-subject distance, and divide the total into the Flash Guide number listed for the ASA film you are using. Round off the result to the nearest f-stop and open one stop wider. Example: using ASA 25 film with a camera-reflector subject-distance of 20 feet -- Guide #20 divided by 20 equals 3 (f2.8 approximate) open an ...

Vivitar Consumer Electronics Store - Vivitar.com

Used Vivitar Automatic Electronic Flash Model 283 Manual O402020. For Sale: Used Vivitar Automatic Electronic Flash Model 283 Manual. Manual has some folded pages and may have pen and highlighter marks. The manual may include other cosmetic signs of use such as small tears. But the manual is complete and fully legible.

Vivitar Automatic Electronic Flash Model 283 Owner Guide ...

Vivitar Auto Electronic Flash Model 283 Instruction Manual (EN) For sale is Vivitar Auto Electronic Flash Model 283 Instruction Manual (EN) manual accessory. I would rate it at 6 out 10 . Manual has been used, but it is clean. It has no pages missing. It shows normal wear from use. Cover has some ripped parts.

Vivitar Auto Electronic Flash Model 283 Instruction Manual ...

Vivitar introduced the 283 in 1972. By 1976, they had already produced their 3,000,000th unit. It's actually a ceremonial flash, made of gold, and it sits in the office of Jim Wellington, who is a Big Cheese at the company. Jim has been with Vivitar since portable flash was a small pile of magnesium powder.

Stroblast: The Return of a Classic?

In addition, as I'm sure you know, you cannot use TTL, "smart" optical slaving, FP/HSS, etc. etc. with it. And it has no explicit manual flash ratio (1, 1/2, 1/4, etc.) power controls, but depends on either an autothyristor and the flash calculator, or doing math in your head to get the right guide number.

Can I use my Vivitar 283 flash with any DSLR cameras ...

The Vivitar 283 electronic flash features bounce flash for softer, more professional-quality lighting. The Auto Thyristor circuitry has a fast recycle time and a high number of flashes per set of batteries. Additional features include autocheck, a sufficient-light indicator, and an illuminated calculator dial.

Amazon.com : Vivitar 283 Electronic Flash : On Camera Shoe ...

I was just reviewing the specs for the KP, and saw something that caught me off-guard. I think the flash output power is not as pathetic as I had thought. It's rated at GN6 @ ISO100. My Vivitar 283 is rated at GN120 @ ISO100. BUT, the KP is GN 6 (ISO 100/m), while the Vivitar is referenced to feet. So, in feet, the KP's flash is more like GN19-20.

KP built-in flash power - PentaxForums.com

a flash unit with a 120/feet GN is about 3300 BCPS (a Sunpak 383 or Vivitar 283) B5P5 changes with the reflector angle so a flash with a zoom head will have several BCPS ratings and a variable GN.

Watt Seconds vs Guide Number: Studio and Lighting ...

A year or so ago, Vivitar sold the flash unit to another company (Sekur I think), and this company is now putting out flashes with the Vivitar name, but I would imagine no common history with the older 283/285 flashes. The new Vivitar 283 is a clone TTL flash that is made for different camera brands (i.e. you can buy one that works with Canon ...

FLASH TESTS: Viv 283 | Photo.net Photography Forums

The GN of Vivitar 283 and 285 is about 1 stop over rated in full manual mode and they run 2/3 to 1 & 2/3 stops under in auto-thyristor mode. This is by reviewing the results from dozens of units and testing several against two Minolta Flash Meter III.
